PETITION UNDER 37 CFR 1.181 TO WITHDRAW HOLDING OF ABANDONMENT

Office of Petitions
Mail Stop Petition
Commissioner for Patents
PO Box 1450
Alexandria VA 22313-1450

Dear Sir:

The above patent application was submitted under 35 U.S.C. 371 on September 14, 2005. The application was submitted without a Declaration. We, Applicant's attorneys, were waiting for the Notification of Missing Requirements before submitting the Declaration. Periodically, we checked the status of this application on Private PAIR to see if a Notification had been issued. All of these status checks indicated a status of "Application Undergoing Preexam Processing." We further checked under "Image File Wrapper" and saw that no Notification of Missing Requirements had been issued.

On approximately August 13, 2007, we again checked the status on PAIR and noticed under "Transaction History" the notation that on 4-25-2006 a "Notice of DO/EO Missing Requirements" was mailed. We never received this Notice. A search of the file jacket and docket records indicates that the Office communication was not received. Attached is a copy of our docket record where the non-received Notice of Missing Requirements would have been entered had it been received and docketed. (The attached report, dated June 23, 2006, shows all actions due for the undersigned on June 25, 2006, when the response to the Notice would have been due.)

04/06/2008 REFERRAL 00000012 133080 10549519

01 FEB 2008 65.00 DA

Even though the extendable period for response expired in October 2006, PAIR still indicated in August 2007 that the application was not abandoned and was undergoing preexam processing, as shown on the attached copy of a screen shot taken August 20, 2007 from Private PAIR. As of that date the application was not abandoned and there was no Notification of Missing Requirements listed in the Image File Wrapper.

After discovering that a Notice of Missing Requirements may have been mailed, we then called the PCT branch of the PTO and requested a copy of the Notice. The PTO faxed us a copy. On August 23, 2007 we contacted Ms. Kidwell, who signed the Notification of Missing Requirements, asking if a new Notification of Missing Requirements could be mailed. We also spoke with Ms. Short, Ms. Kidwell's supervisor. She said the PTO could not issue a new Notification of Missing Requirements, but would issue a Notice of Abandonment. We eventually received the Notification of Abandonment dated August 24, 2007.

After receiving the Notification of Abandonment, we submitted a Petition under 37 CFR 1.181 to Withdraw Holding of Abandonment on September 21, 2007. In support of the Petition, we provided a copy of the docket record for the Attorney of Record, David R. Price, for June 25, 2006, showing where the non-received Notification of Missing Requirements would have been entered had it been received.

A Decision was mailed approximately on March 17, 2008, in which the Petition to Withdraw Holding of Abandonment was dismissed because the docket record of June 25, 2006 provided in support of the petition was for a single attorney of our firm rather than a master docket for the entire firm.

Applicant's attorneys hereby request withdrawal of the holding of abandonment. However, no master docket exists for June 25, 2006. In the absence of a master docket, the Applicant is submitting in support of this petition:

(1) a partial master docket for June 25, 2006, showing where the non-received Notification of Missing Requirements would have been entered had it been received. This would be the actual master docket, but for two pages (pages 1 and 2 of 208) which were

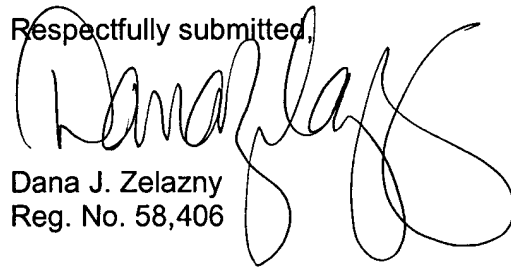

inadvertently lost sometime between June 23, 2006 and April 1, 2008. Missing pages 1 and 2 are not for the attorney responsible for the application, David R. Price.

(2) a copy of the docket record for the attorney responsible for the application in question, David R. Price, for June 25, 2006, showing where the non-received Notification of Missing Requirements would have been entered had it been received.

(3) the individual docket record for the application in question showing where the non-received Notification of Missing Requirements would have been entered had it been received.

Enclosed with this petition, in response to the Notification of Missing Requirements, is the declaration of the inventors. Please charge \$65 to Deposit Account 13-3080 in payment of the surcharge for late submission. Should any additional fees be due, please also charge this deposit account.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Dana J. Zelazny', written over the typed name and registration number.

Declaration and Power of Attorney For Patent Application

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am the original, first and sole inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled IMPROVEMENTS IN AND RELATING TO TRAILER COUPLING (Attorney Docket No. 013344-9061-00), the specification of which was filed with my authority, on March 1, 2004, as International Application No. PCT/GB2004/000853.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims referred to above.

I acknowledge the duty to disclose to the Patent and Trademark Office all information known to me to be material to patentability as defined in Title 37, Code of Federal Regulations, §1.56.

As a named inventor, I hereby appoint the following registered practitioners associated with the customer number identified below to prosecute this application and transact all business in the Patent and Trademark Office connected therewith; and request that the Office direct all communication in or pertaining to this application to:

Customer Number

23409

I hereby claim foreign priority benefits under Title 35, United States Code, §119 of the foreign application for patent or inventor's certificate listed below and have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:
